

SKB-7A008

MORTUARY REFRIGERATOR

SKB-7A008

FEATURES AND HIGHLIGHTS

Technical parameters

▪ Rear compressor size (LxWxH)	2400x1580x2110 mm
▪ Opening size (LxW)	630x440 mm
▪ Pallet size (LxW)	1950x580 mm
▪ Rated temperature	5~-15°C
▪ Environment temperature	10-38°C
▪ Power supply	220V, 50HZ
▪ Refrigeran	R134A

Technical configuration

<input checked="" type="checkbox"/> Door sealing	8 pcs
<input checked="" type="checkbox"/> Compressor	8 pcs
<input checked="" type="checkbox"/> Body tray	8 pcs
<input checked="" type="checkbox"/> LED light	8 pcs
<input checked="" type="checkbox"/> Control panel	8 pcs
<input checked="" type="checkbox"/> Condenser	8 pcs

Material

High quality stainless steel with the Mirror surface polishing. Panasonic Robotic ensure 360° full smooth welding surface.

Refrigeration

Quick refrigeration, stably keep the temperature within 5°C to -15°C.

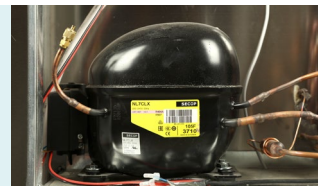

Door sealing

One built heavy cabinet door, thickness:50mm. High quality and undeformable during normal using. Replaceable door seal close to the surface to make sure stable the temperature.

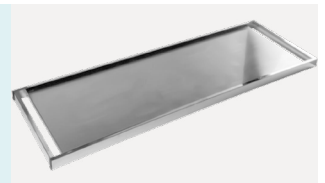

Refrigeration system

High-strength compressor with good refrigeration and enegey saving performance. Each room has an independent compressor to make sure every room will not influence each other.

Body tray

High quality stainless steel body tray with high stability and load capacity.

Light

Aluminum alloy LED light with longer service life and more stable brightness.

Temperature Control

High precision digital display of control panel. With the sound and light alarm of over temperature.

Condenser

Closely distributed copper tubes, with the strong refrigeration effect.
